

9 NOV 1977

NOTE FOR: Acting Chief, Real Estate and Construction Division, OL
STATINTL FROM: [REDACTED]
Executive Officer, OL

OK 7-4912
Re your memo on OL's procurement of a third 2500 kW generator using recurring reimbursables, the following observations are made:

- Any reprogramming in excess of 100k will require O/Compt approval.
- The third generator has been added to the list of OL 78 unfunded requirements which already total \$1,300,000.
- If we had all this surplus, why did we put the "poor mouth" on NPIC for '78 after hours charges?

*Rad - I talked to Glenn, and I think he wants to hold off about 4 mos until our budget is firm and then, if necessary, go to the Comptroller as you suggest. It is still a good idea so hold this general mem. and then let's bring it up w Glenn again.
